Summary

A remix of a remix, this one is much easier to assemble and use Dispenses the toilet paper

Household > Bathroom

Tags: sheep toiletpaper toiletpaperholder dispenser goat papertowelholder toiletpaperdispenser

A remix of a remix - this one can be used to dispense the toilet paper and is easy to assemble and use.

Any black filament will do, no supports or brim needed

I closed the hole in the back for a better look, adjusted the size of the head for a less tight fit (easier roll changes)

The legs now slot into D shaped holes which makes it possible for all 4 to stand on a flat surface. This is a tight fit, but using glue is still recommended.

This remix is based on

Actually useful Sheep and Goat toilet/tissue paper roll holder and dispenser
